Summary — Software Engineer with expertise in the MERN stack and responsive UI development. Solved 200+ DSA problems, demonstrating strong problem-solving skills. Passionate about writing clean, production-ready code and contributing to impactful projects.

Skills

Languages: JavaScript, Java, Python, HTML5, CSS3.

Technologies: React.js, Node.js, Express.js, MongoDB, MySQL, Tailwind CSS.

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel.

Concepts: Data Structures & Algorithms, OOP, DBMS.

Projects

Stylentra - E-commerce Website for a Fashion Brand : GitHub **Apr 2026 – Jul 2026**
[React.js, Redux Toolkit (Thunk), React Router DOM, Node.js, Express.js, MongoDB, JWT, Rest API, Cloudinary, Tailwind]

- Shipped a full-stack, **mobile-first e-commerce platform** with role-based access and secure checkout via **PayPal** enforced security with **JWT** (route protection), **bcrypt**, and backend validation.
- Built **30+ RESTful Application Programming Interfaces (APIs)** for Create, Read, Update, Delete (CRUD) operations, and created an **Admin Dashboard** to manage products, users, orders, and revenue analytics.
- Architected the frontend using React.js with **Redux Toolkit (Thunk)** and React Router; enhanced UX with **search, filtering, pagination, lazy loading**, and persistent cart/wishlist features.
- Enhanced media using **Cloudinary**, reducing image load time by **35%**, and designed a modern UI with **Tailwind CSS**.

Conversa AI - Intelligent Conversation Engine : GitHub **Jan 2025 – Feb 2025**
[React, Gemini API, JavaScript, CSS, LocalStorage]

- Engineered a **robust, multi-session chat application** using React Context and `localStorage` for full state persistence, resulting in a **90% reduction in perceived load time** for returning user sessions.
- Integrated **3+ advanced interaction features** (voice-to-text, Markdown rendering, chat deletion), increasing user input efficiency by an estimated **200%** for voice users over manual typing.
- Crafted a **fully responsive and intuitive UI/UX**, achieving a **95+ score in Google Lighthouse** for Performance and Accessibility through component rendering and modern CSS.

Education

Galgotias University **Sep 2023 - Current**
Bachelor in Computer Science and Engineering *CGPA : 8.22*

L.S. COLLEGE **Apr 2020 - Apr 2022**
Higher Secondary School (12th) *79.60%*

Certifications

- **Oracle Academy – Database Design** (Oct 2024 – Dec 2024)
- **GUVI – Java** (Nov 2024 – Jan 2025)
- **NPTEL – Design Thinking Certificate**
- **Deloitte – Data Analytics Job Simulation**

Achievements

- **Built a Full-Stack E-Commerce Website** using React.js, Vite, and Tailwind CSS with product browsing, search, and cart features.
- **Completed 4 Certifications** in AI/ML, Java, Python, and Design Thinking to strengthen technical expertise.
